**DAQ Stack ID**  
For office use only.

**Stack ID**  
Provide the same stack ID number as listed in Form F15a.

**Height**  
Determine the height in ft by measuring the stack or vent from ground level to the top of the stack or vent.

**Exit Diameter**  
Determine the exit diameter in feet by measuring the inside cross section.

**Temperature**  
Measure the gas temperature in °F at the stack exit.

**Flow Rate**  
The flow should be given in actual cubic feet per second at the stack exit.
