DAQ ID
For office use only.

Pt. Source ID
Provide the identification number the company associates with the process.

SCC
Enter the appropriate Source Classification Code (SCC). See page 18 of the General Instructions for explanation.

Description of Process Emissions
Describe the process/equipment which leads to the generating production of emissions.

Associated Stack ID
Give the same Stack ID to be listed in Form F6c.

NSPS
If equipment is regulated under New Source Performance Standards (NSPS), enter ‘yes’. The Approval Order conditions usually list any applicable NSPS equipment.

Name of Solvent or Coating Material
Provide scientific name or trade name commonly used in the industry.

Thruput
Give the total gallons used of the solvent or coating materials in gal/yr. Please account for any material recycled.

Density
Provide the density of the solvent or coating materials in lb/gal. Check Material Safety Data Sheets (MSDS) for this data.

% VOC by Weight
Provide percentage of VOC by weight in the solvent or coating material. Check Material Safety Data Sheets (MSDS) for this data.

VOC Emissions
Calculate VOC emissions in tons per year. Provide complete calculations on a separate sheet. See page 15 of the General Instructions for information on completing calculations.

Estimate Code
Provide the method code for quantifying actual emissions of each pollutant. The valid estimate method codes are listed in Table 6, page 26 of the General Instructions. If estimate code 8 (EPA Emission Factor) is used, also include the specific AP-42 section used in the Comments field.

Emission Factor
Provide the emission factors used in the calculations for each pollutant. See page 15 of the General Instructions for information on emissions factors.
<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Units</td>
<td>Units appropriate to the emission factor used must be provided.</td>
</tr>
<tr>
<td>Comment</td>
<td>Please provide any additional information that clarifies your emission calculations.</td>
</tr>
<tr>
<td>Company's ID or Name of Control</td>
<td>The company’s ID or name for the control.</td>
</tr>
<tr>
<td>Control Code</td>
<td>See Table 5 on page 21 of the General Instructions for options.</td>
</tr>
<tr>
<td>% Collection Efficiency</td>
<td>Percent collection efficiency of the control equipment should take into account the age, production demands, breakdowns, etc.</td>
</tr>
</tbody>
</table>
